WORK EXPERIENCE

Lead Software Engineer

STRNG – Dubai, UAE
10/2023 – Present
- Led the architecture and development of full-stack applications using **Next.js**, **Node.js**, and **Firebase**, with deployment on **Vercel**. - Integrated RESTful APIs and third-party services for payments, analytics, and CRM. - Provided technical leadership, code reviews, and mentorship to the development team. - Managed timelines, resources, and cross-functional collaboration, ensuring on-time delivery of critical platform updates. - Explored AI integration via OpenAI APIs for content automation. - Maintained CI/CD pipelines with GitHub Actions and optimized DevOps workflows.

Senior React Native Developer

Arada – Dubai, UAE
07/2022 – 09/2023
- Developed and maintained mobile app features using **React Native** and **TypeScript**. - Contributed to real estate-focused user experiences such as property listings, maps, and dashboards. - Collaborated with product and backend teams to integrate with internal tools and APIs. - Participated in architectural planning and Agile sprints.

React Native Developer

LARSA – Dubai, UAE
11/2020 – 05/2022
- Built and shipped React Native applications integrated with Firebase backend. - Delivered scalable features and optimized performance across Android and iOS platforms. - Actively participated in codebase structure planning and application architecture.

Front End Developer

Info Strategic – Dubai, UAE
01/2019 – 04/2021
- Designed and developed responsive user interfaces using **React JS**, **Material UI**, and **JavaScript**. - Implemented GraphQL-based APIs for enhanced data retrieval.

TECHNICAL SKILLS

Languages & Frameworks: React, React Native, Next.js, Node.js, TypeScript, JavaScript, Redux, GraphQL
Databases & Backends: Firebase (Firestore, Auth), MongoDB, REST APIs
